

Adding a Guest Account

By default, viewing information in Companion and CampInTouch, such as Photos and News, is restricted to parents or guardians. You can see your kids' activity and info, but it's not available publicly. We take your campers' privacy seriously. However, if you choose, you can add guests, such as friends, grandparents, aunts, and uncles. This gives them the ability to view and purchase photos, send emails, and view news.

In order to add a guest account:

1. [Log in to your CampInTouch account.](#)
2. Select "Guest Accounts" under "Online Community" near the bottom of your dashboard.
3. Enter first name, last name, and email address for the guest you'd like to add.
4. Check the box next to each camper that you would like your camper to be able to email. Please note that although campers will not be able to send return emails directly to guests, you can forward your camper's return emails.
5. Include an optional note to your guest.
6. Specify if you would like to transfer CampStamps to your guest so they can send email messages.
7. Click "Create Guest Account"

Your guest will receive an email with login information and will then have their own access. If they forget their password, they can follow the same password reset procedure that your parents use.

Invite friends & family to log in with their own guest account. As your guest, they will be able to read news and view photos. **Check the box next to your camper's name** to give your guest the ability to send emails.

Your guest's first name: Required

Your guest's last name: Required

Your guest's email: Required

Your guest may email:

Myrcela Baratheon

Joffrey Barratheon

Optional note to your guest:
Your guest will be emailed log in instructions.

You have **8** CampStamps. Do you want to share or buy some for your guest?

Give or Buy CampStamps for your guest.
